

In a drive to improve customer services and the move to a digital platform, local authorities need to provide innovative and easier ways for customers to use and pay for services.

Key benefits

ADVAM solutions enable you to...

- More effectively manage payment for parking and services
- Understand your customers to deliver a better experience
- Improve the way customers and residents pay for your services
- Be in line with digital and customer focused initiatives
- Create operating efficiencies
- Support financial management structures, with integration into your backend systems
- Manage your staff and contractor parking

ADVAM – for local government

Effective customer interactions and efficient payment processing are vital elements in the provision of higher quality, lower cost local government services. ADVAM enables you to more effectively manage payments for parking and other services including, rates, permits and fines.

ADVAM is experienced in integrating our solutions across a range of council-wide back end IT systems, and our flexible options mean that you can provide a choice of payment routes – online, via mobile, or over the telephone.

Our expertise in parking means you can transform the efficiency and effectiveness of your off-street and on-street assets, begin to understand who parks in your car parks and more effectively engage with your customers.

ADVAM solutions for local government

- **ParkCharge** – provide ticketless parking, make it easier for people to park, improve your understanding of your customers and achieve higher levels of loyalty
- **AltitudeReservation** – enable Prebook parking, find out who your customers are, provide special offers and secure a competitive advantage
- **PathToPay** – the proven e-commerce payment processing solution. Manage payments made online and over the phone including licences, fines, and rates
- **StaffPark** – ticket-free, account-based parking for employees and contractors
- **UnattendedPayments** – the complete and trusted unattended payment solution that can be integrated with a kiosk or can be used to manage parking payments
- **ePark** – the parking app that lets you remove the hassles of cash
