

ADVAM – for parking operators

Today's parking industry decision makers know how vital the quality of a customers' experience is to the long-term success of an operation, especially in such a price sensitive, competitive market.

Key benefits

ADVAM solutions give you the opportunity to...

- Manage capacity and revenue
- Engage with your customers
- Understand their needs
- Develop loyalty and advocacy strategies

ADVAM – for parking operators

Creating consumer loyalty and increasing the value of customer transactions is key to maximising the return on your asset, but that can be difficult if your payment equipment and your customer analytics capability are not up to date. ADVAM manages the payments of tens of thousands of consumers every day for the leading car park operators in UK, Europe, New Zealand and in Australia.

Our innovative solutions help you to collect data and information so that you're able to manage capacity and revenue, engage with your customers, understand their needs, and develop strategies that grow their loyalty and advocacy to your operation. Our solutions provide a platform not only to help you remain price-competitive, but also to create, manage and incentivise loyalty.

We'll guide you through the EMV journey and show you how we can transform the parking experience of the people who matter most to you – your customers.

ADVAM solutions for car park operators

- *AltitudeReservation* – the world leading car parking reservation solution
- *ParkCharge* – ticket free, account-based parking for your customers
- *UnattendedPayments* – the complete and trusted unattended payment solution
- *ePark* – the parking app that lets you remove the hassles of cash
