ADVAM
StaffPark

ADVAM
the way to pay
A **TNS** Company

StaffPark from ADVAM is a ticket-free parking management platform that enables you to improve how you manage your car parking capacity to meet the needs of staff, third party licensees and contractors.

Manage your car parking effectively
StaffPark makes it easy for you to manage the parking needs of employees and contractors. In a shared car park it enables you to segment, designate and manage car parking for users including other businesses and consumers.

Integration with existing access control equipment
StaffPark was developed with the world's leading providers of car park access control systems, so it can be seamlessly integrated with your existing hardware solution.

Management planning and reporting
StaffPark's tools enable you to manage account access, pricing, payment and parking criteria. It can also be linked to your business intelligence solution enabling to improve your understanding and enhance your management of parking requirements and preferences.

Presented as part of your brand
StaffPark integrates with your online portal, giving employees and contractors a seamless registration, payment and account self-management experience.

StaffPark enables you to link in to existing HR systems and access methods, and to automate payment processes – maximising efficiency for you and making the lives of employees and contractors easier.

How StaffPark works

Simple registration, easy payment options

Your employees and contractors can register themselves, or be pre-registered from your branded online portal. They can then select from the payment method you have pre-determined, including pre-pay with auto top up, pay-as-you-go via a linked card, seasonal payments or salary deduction. StaffPark can also be configured to manage free parking.

Ticket-free access using your existing equipment

ADVAM is an expert in integrating our solution with your existing equipment such as number plate recognition, RFID tag or PIN Pad. We are access control agnostic and will work with your preferred hardware.

Drive in, park, and go

The user's parking fee is automatically calculated, deducted and paid to your preferred bank according to the system rules you have installed, including payment by session length, or season ticket contract.

About ADVAM

ADVAM delivers world leading payment solutions enabling our clients to engage with their customers.
